Frontend Developer specialized in React and React Native (Expo / Expo Router / EAS), with experience in Next.js (App Router). Strong in UI architecture, state management (Zustand), asynchronous data handling (TanStack Query), and API consumption with Axios. Experienced in building complex flows and RBAC, including work on Android devices and payment terminals.

EXPERIENCE

Gyoza Studio Technology — Frontend Developer · Remote (Spain)
Aug 2023 – Present

Developed web and mobile products for clients and internal platforms, contributing to projects such as **Goiko, Wetour, Turbowash,** and payment-device integrations.

- Built interfaces and features using React, React Native (Expo), and Next.js.
- Implemented purchase/payment screens, validations, and end-to-end user experiences from start to finish.
- Integrated APIs and external services (Axios), managing async data (TanStack Query) and global state (Zustand).
- Built reusable, maintainable UI with SCSS/Sass + BEM, responsive design, and component-based architecture.
- Collaborated closely with backend, product, and design teams to deliver production-ready features.
